EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. J. Petruzzelli on 7/10/07.

The application has been amended as follows:

In the Abstract:

Line 2, "comprises" has been changed to --includes--.

In the Claims:

Claim 9, line 2, "estimator" has been changed to --estimation--;

Claim 10, line 1, "function" has been changed to --filter design includes--;

Claim 12, line 2, "the" has been changed to --a--;

Claim 17, line 1, "storage" has been changed to --readable--;

"instructions" has been changed to --a--; and

line 2, before "therein", --computer program-- has been inserted.

2. The following is an examiner's statement of reasons for allowance: Claims 1-18 are considered allowable over the prior art because none of the references of record alone or in combination suggest, disclose, or teach an apparatus and method for video filtering of an input as corrupted by unknown noise comprising generating a motion-compensated video; spatiotemporally filtering the video; estimating a standard

deviation; estimating a scale factor; and iterating the steps using the scale factor to generate the motion-compensated video sequence and using the estimated standard deviation to perform filtering until the value of the noise level approaches the unknown noise, whereby the noise level is then characterized by a finally determined scale factor and standard deviation all together as claimed. The closest prior art, Wang (6,281,942), discloses conventional video filtering, either singularly or in combination, fails to anticipate or render the above limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Y. Lee whose telephone number is (571) 272-7334. The examiner can normally be reached on (571) 272-7334.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, John Miller can be reached on (571) 272-7353. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
